

ECLIPSE

SECOND DAWN FOR THE GALAXY

WARPED UNIVERSE

This expansion allows for the creation of more balanced game board layouts for 5-player games (and 8-player games when used with the Expanded Galaxy expansion). Multiple copies of this expansion can be combined to create tighter, more interactive, 2-, 3-, and 4-player games or more balanced 7-player games (when used with the Expanded Galaxy expansion).

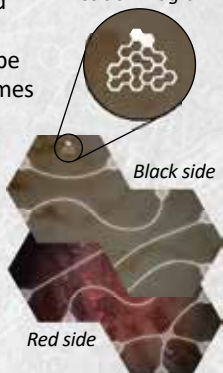

CONTENTS 9 two-sided Double Hex Sector tiles.

Each Double Hex Sector tile has a black side and a red side. Combined, the black sides form a single Large Warp Sector. The red side of each Double Hex Sector tile contains a Small Warp Sector.

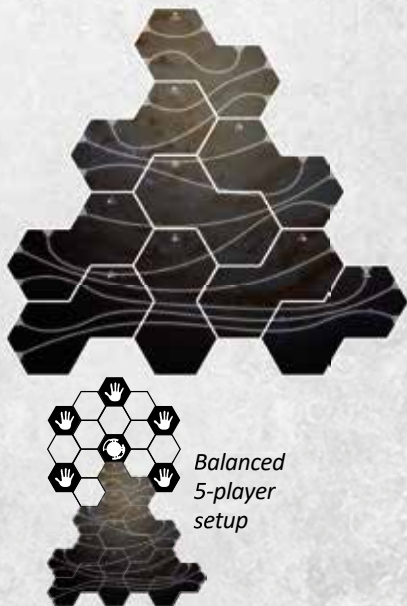

NOTE *Guardian Sectors are not used with this expansion.*

LARGE WARP SECTOR To assemble a Large Warp Sector, arrange each Double Hex Sector tile with its black side faceup in the position depicted on the tile's Position Diagram. Orient each tile with its Position Diagram facing the top of the Large Warp Sector (toward the GCDS, see example). Next, place the assembled Large Warp Sector in the position and orientation indicated in the Starting Layout illustration for your player count.

SINGLE WARPED UNIVERSE EXPANSION

Balanced
5-player
setup

MULTIPLE WARPED UNIVERSE EXPANSIONS

Tighter 2 and 4-player setup

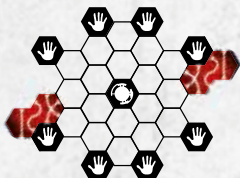

Tighter
3-player
setup

SMALL WARP SECTOR Small Warp Sectors can be used alone or in combination with Large Warp Sectors to create the Starting Layouts below or custom Starting Layouts of your own design. Place Double Hex Sector tiles with their red sides faceup in the position and orientation indicated in the Starting Layout illustration for your player count.

SINGLE WARPED UNIVERSE EXPANSION (8 PLAYERS)

*More players
with fewer sectors*
